Crime Proofing Office and Reception Areas

Management recommends that all staff keep their valuables i.e. purses, wallets, etc., hidden or preferably in a locked area to prevent theft of personal belongings.

Another area of concern is laptops or various electronic devices. If you are leaving your office for any length of time please make it a habit to put away your laptop or other devices, again away from view or in a secure area.

Most secure option is to keep your main office door locked at all times. If it isn't possible to keep your main doors locked then keep your valuables in a secure area away from view.

Note: If someone requests access to your suite, or are soliciting within the building, please contact the Management Office at **416.924.8388** or Building Security after hours at **647.464.4258** for confirmation before giving access to anyone. Soliciting is strictly prohibited.

Let's work together to keep 345-365 Bloor Street East a safe and secure environment.
